2kWh energy storage power supply

Overview

What is a 3KW power supply?

A 3kW power supply is a type of industrial power supply that typically operates in heavy-duty environments such as industrial plants and power utilities. It accepts a 480Vac, 3-phase line input and delivers any single output voltage between 24V and 600Vdc. A DC-input version, which accepts any voltage between 500V and 800Vdc, is also available.

What is POWR2 energy storage?

POWR2 energy storage technology reduces CO2 emissions, cuts fuel costs, and reduces diesel engine runtime to increase genset asset life and decrease service frequency. POWRBANK can reduce construction site energy costs and fuel consumption while lowering CO2 emissions and helping you meet your sustainability regulations and goals.

How can powrbank reduce construction site energy costs & fuel consumption?

POWRBANK can reduce construction site energy costs and fuel consumption while lowering CO2 emissions and helping you meet your sustainability regulations and goals. Around-the-clock, clean, reliable, silent energy.
