

## Kongres Container

# 380w solar panel price

## Overview

---

Sweet Spot for Efficiency and Cost: 380W panels offer 20-25% efficiency ratings while maintaining competitive pricing at \$0.55-\$0.68 per watt, making them ideal for maximizing energy production without premium costs associated with 400W+ panels. How much does a 380 watt solar panel cost?

The cost of a 380 Watt solar panel is between \$210 and \$260. A 380 Watt solar panel has 144 half-cut solar cells with measurements similar to 72 cell solar panels. The dimensions of an average 380 Watt solar panel are about 78" x 39" x 1.4", and the weight ranges from 50 to 63 lbs.

Can a 380 watt solar panel withstand a hurricane?

A 380 Watt solar panel can withstand a hurricane. The price of a 380W solar panel mainly depends on the brand, with options available from \$210 to \$260. A 380 Watt solar panel contains 144 half-cut solar cells, similar in measurement to 72 cell solar panels.

What is a 380W monocrystalline JA Solar panel?

The 380W monocrystalline JA solar panel features 9 busbar technology together with shorter half-cell cells connected internally in two series of strings. It reduces current losses and increases performance even when the module is affected by partial shading.
