# 48V 20A inverter

## Overview

---

What is a 48 volt inverter?

In other words, it is a device that can take current from a bank of batteries (48V) and convert it to the type supplied in the grid to power your appliances and devices. I suggest you use A 24-volt inverter or 36-volt inverter or 48-volt inverter when you need to power appliances over 3000 Watts.

What is a 48 volt pure sine inverter?

As their name implies, the 48-volt pure sine inverters from AIMS Power are designed to provide pure power. This is important when you are using an inverter to power sensitive electronics as well as medical items, certain tools and other modern equipment that require clean power similar to what electric utilities provide.

What is a pure sine wave inverter?

True pure sine wave inverter can provide high quality and stable output power, Less wear to protect your AC equipment more stable.It's recommended by most cordless tool manufacturer that a pure sine wave inverter is used to ensure long battery life.

Why do you need an inverter?

This is important when you are using an inverter to power sensitive electronics as well as medical items, certain tools and other modern equipment that require clean power similar to what electric utilities provide. These inverters also offer great reliability and efficiency for businesses, workshops and medical facilities.
