60W solar all-in-one machine parameters

Overview

Full digital voltage and current double closed loop control, advanced SPWM technology, output of pure sine wave. Two output modes: mains bypass and inverter output; uninterrupted power supply. Available in 4 charging modes: Only Solar, Mains Priority, Solar Priority and Mains &.

Full digital voltage and current double closed loop control, advanced SPWM technology, output of pure sine wave. Two output modes: mains bypass and inverter output; uninterrupted power supply. Available in 4 charging modes: Only Solar, Mains Priority, Solar Priority and Mains &.

s to DSP control and advanced control algorithm, it has overvoltage alarm / overvoltage recovery. settable settings, and suitable for various types of design, allowing access of lead-acid battery and lithium battery, mobile phones, Internet monitoring as well as remote.

How can we help you?

.

All-in-One Integrated Solar LED Street Light Independently Light up dark areas without electricity ! Powerful Solar Panel with Built in Motion Sensor and Photocell IP65, Temp. Range -20°C ~ 65°C Color Temp. (CCT) 40K=4000K, 55K=5500K ±10% • 160 Lumen per Watt • CRI ≈ 80 • (□) Rated Life 50,000 Hrs.

Full digital voltage and current double closed loop control, advanced SPWM technology, output of pure sine wave. Two output modes: mains bypass and inverter output; uninterrupted power supply. Available in 4 charging modes: Only Solar, Mains Priority, Solar Priority and Mains & Solar hybrid.

Widely used in the road, street, and factory, park road, rural, mountainous area and the remote area lighting project, courtyard, schools, square and other need to place.

This energy storage system can provide power to connected loads by utilizing

PV power, utility power and battery power and store surplus energy generated from PV solar modules for use when needed. When the sun has set, energy demand is high, or there is a black-out, you can use the energy stored in.

60W solar all-in-one machine parameters
