ASEAN BESS outdoor battery cabinet price

Overview

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

AZE's waterproof type outdoor battery cabinet systems are the perfect solution for housing your Low Voltage Energy Storage systems, they are widely used in a variety of applications such as Back-up systems for office computers, data centres, Banks, hospitals, Schools & Infrastructure and can be.

Outdoor Cabinet BESS CX-CI002 is an all-in-one 215kWh lithium battery storage cabinet system specifically developed for demand regulation, peak shaving, industrial and commercial energy storage, etc. It integrates 215kWh LiFePO4 batteries with BMS, high-voltage box, power distribution system, PCS.

AZE can provide a wide selection range of outdoor integrated cabinet, battery cabinet and telecom equipment cabinet, which are widely used in wireless communication base station ,electricity,radio station, solar battery, television field,5G base industries,including the new generation of 4G system.

Individual pricing for large scale projects and wholesale demands is available. Flexible All-in-one design and highly integrated Modular design with different optional parts up power supply.

This 1.5MW 1.6MWh Sinostorage BESS all-in-one containerized energy storage system incorporates battery modules, battery management system (BMS), high voltage box, power conversion system (PCS), intelligent power distribution units (PDU), fire suppression systems (FSS), temperature control

systems.

Feature highlights: The BESS Outdoor Lithium Ion Battery Cabinet offers 1MWh to 3MWh capacity with liquid cooling and air-cooling options, designed for commercial off-grid microgrid energy storage. It integrates advanced systems like energy management, monitoring, and fire protection.
