Angola 1000vdc solar combiner box

Overview

What is a solar combiner box?

With a surge protector and a fuse, it offers enhanced protection against voltage surges and overcurrent situations. Designed for 1000V applications, this combiner box features 2 inputs and 1 output, allowing for efficient connection and distribution of DC power from your solar panels.

Why should you choose a 1000v combiner box?

Our 1000V combiner boxes are equipped with true solar DC disconnect switches, DC fuse holders and type 2 surge arrestors to prevent over-voltage. Within a durable PC enclosure, we pre-assemble reliable DC components to reduce working time and error susceptibility, thereby improving the system operations of your end-users significantly.

What are the benefits of a solar combination box?

Product Benefits Our Solar Combiner Box with DC Surge Protector and DC Fuse provides a comprehensive solution for your solar power system. With a surge protector and a fuse, it offers enhanced protection against voltage surges and overcurrent situations.
