

Kongres Container

Automated production of solar panels

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Automation in solar panel production involves leveraging technologies such as robotics, machine learning, and smart sensors to optimize the entire manufacturing process. From silicon wafer slicing to module assembly, these technologies minimize human intervention while maximizing accuracy and speed.

Automated production of solar panels
