Azerbaijan Electric Intelligent High Frequency Inverter

Overview

What is HFP hybrid inverter?

HFP series hybrid inverter 3.3KW 4.3KW 6.3KW 8.3KW 10.3KW 12.3KW, DC 24V 48V to AC 220V 230V 240V, a type of solar energy solution that can operate in on-grid, off-grid and hybrid modes. MPPT tracking voltage range from 40V to 500V, PV input power range from 5000W to 12000W.

What is xindun HFP series hybrid inverter?

Bidirectional energy storage design. Xindun HFP series hybrid inverter supports on-grid, off-grid, and hybrid modes, providing flexibility for various applications. Can operate with both lead-acid and lithium batteries, or even without any battery. Comes with a built-in mppt charge controller for efficient energy management.

What is a hybrid inverter with WiFi?

An inverter with WiFi enables remote monitoring and management of your hybrid system. You can track real-time performance, receive alerts, and optimize energy usage from anywhere using a smartphone or computer. 4. What is a hybrid inverter with MPPT charge controller, and why is it important?

.

Where are xindun hybrid inverters made?

Xindun hybrid inverters, made in China, are exported to numerous countries worldwide. Leveraging the robust Chinese supply chain, our factory benefits from access to high-quality materials and advanced manufacturing technologies at competitive prices. This allows us to maintain stringent quality control and offer cost-effective products.

Are hybrid inverters compatible with lithium batteries?

Yes, most hybrid inverters are designed to be compatible with various battery

types, including lead-acid and lithium batteries. This versatility allows you to choose the best storage solution for your specific needs and budget. 6. What kind of maintenance does a hybrid inverter require?

.

What are the features of a hybrid inverter?

1. Capable of setting working modes (on grid mode, off grid mode, hybrid mode).
2. With on-grid current setting function.
3. With charging priority setting function.
4. With lithium battery BMS communication function.
5. Hybrid inverter with mppt charge controller built-in.
6. With WIFI GPRS monitoring optional.
- 7.
