Battery Inverter Factory

Overview

Does Sungrow offer a solar inverter & battery energy storage system?

TURNING DC TO AC. AT NIGHT. Sungrow provides a comprehensive portfolio, which includes solar inverter and battery energy storage system technologies, as well as everything needed to efficiently operate these components within your budget. Our products seamlessly integrate into existing grids in accordance with all standards of certification.

Which batteries are used in our inverters?

For batteries, we only use Class A LiFePO₄ batteries from China's top five brands, using BYD automotive-grade smart BMS technology. Our inverters' core components are adopted with international brands. Such as, IGBT is from INFINEON, and MOSFET is from TOSHIBA.

What types of inverters do you offer?

We provide hybrid inverters, off-grid inverters, micro inverters, lithium batteries, gel batteries, and all-in-one energy storage systems. These products give homeowners reliable access to power, allowing them to enjoy stable electricity while cutting dependence on the grid.

Why should you choose techfine solar inverter?

Let you enjoy safe and green energy. Integrate global resources, promote technological innovation, and provide reliable green smart power products and services to users in various fields around the world. Techfine is a solar inverter manufacturer and battery factory with many years of industry experience.

What if my inverter company is missing from this list?

If your inverter company is misrepresented on this list, or if you'd like to feature your inverter company missing from this list, please reach out to editor Kelsey Misbrener at kmisbrener@wtwhmedia.com. Check in with the

nation's leading solar construction magazine today.
