Bosnia and Herzegovina Solar Power Generation and Energy Storage Quote

Overview

Can solar power plants be used in Bosnia & Herzegovina?

From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants. It was estimated that energy produced from solar power plants could be 70.5×10^6 GWh/year and the most suitable area is Herzegovina.

Is Bosnia and Herzegovina primed for 'huge' solar development?

Bosnia and Herzegovina's southern region is primed for "huge" utility-scale solar development, Assistant Professor Farooq Sher tells pv magazine. He came to this recent conclusion after two years of researching the Balkan country's current renewable energy capacity and potential.

Is Bosnia and Herzegovina a good place for solar energy?

He came to this recent conclusion after two years of researching the Balkan country's current renewable energy capacity and potential. Farooq Sher, associate professor at Nottingham Trent University, told pv magazine that the southern region of Bosnia and Herzegovina is perfect for large-scale solar rollout.

Who invests in the energy sector in Bosnia and Herzegovina?

The authorities in Bosnia and Herzegovina do not show significant interest in the growth of this energy sector, therefore the investments so far are mostly from the European Union (EU) or individuals. However, this is not the case only in Bosnia and Herzegovina but also in other countries of the region.

Does Bosnia & Herzegovina have a 'underdeveloped' PV potential?

The report found that despite the country's energy security and independence, it is weighed down by "air pollution and health impacts" from combustion of fossil fuels and wood. The report also recognizes Bosnia and Herzegovina's "underdeveloped" PV potential.

Can bioenergy be used in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization.
