Croatia emergency energy storage power supply price

Overview

How much does electricity cost in Croatia?

Croatia, September 2023: The price of electricity for households is EUR 0.150 per kWh or USD 0.160 per kWh. The electricity price for businesses is EUR 0.148 kWh or USD 0.158 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes.

Why should Croatia be part of the EU electricity market?

Being part of the EU electricity market and its connections with neighboring countries are vital for its energy strategy. As Croatia continues to evolve its energy sector, it stands as a model of sustainable practices, regional cooperation, and forward-thinking policies in the realm of electricity generation and distribution.

What is Croatia's energy package?

SARAJEVO, Feb 16 (Reuters) - The Croatian government has prepared a 4.8 billion kuna (\$725 million) package designed to offset the impact of rising energy prices on households, businesses and socially vulnerable groups, Prime Minister Andrej Plenkovic said on Wednesday.

What is Croatia's energy sector?

Croatia's energy sector is diverse, drawing from various sources to meet its electricity needs. The main source of energy in the country is hydroelectric power, which plays a pivotal role in its energy landscape. Significant investments have been made in hydroelectric facilities, capitalizing on the country's abundant water resources.

Why is Croatia focusing on hydroelectric power?

This focus on hydroelectric power reflects Croatia's commitment to sustainable energy practices and environmental conservation. Despite the dominance of hydroelectricity, fossil fuels, particularly coal and natural gas,

also contribute substantially to Croatia's energy mix.

How much energy does a shower save in Croatia?

With the energy-saving shower, you can save up to 50% energy compared to standard shower heads. Or you can shower half the time. With the electricity price today in Croatia you can save 0.02 € for each shower. What is a kWh?

kWh stands for kilowatt-hour, and is a unit that tells how much energy is used in one hour. Kilo means a thousand.
