The Cyprus Department of Environment has granted a permit for the construction of a large-scale 100 MW photovoltaic park. This will be developed by Total Energies in partnership with Universal Green Energies Ltd. The new energy project will be located on land owned by Universal Golf Enterprises and.

Plans for three large solar photovoltaic (PV) and battery storage parks in the community of Agios Theodoros, Larnaca, have entered a public consultation phase, sparking a debate among residents over the “industrialisation” of the rural landscape. The Environmental Impact Assessment Studies (EIAs).

Cyprus offers one of the most popular destinations for green energy investments, particularly in the production of solar parks. At “Cyprus For Investments”, we provide you with direct access to detailed information and competitive prices as we work directly with the owners. Let’s delve into the.

Cyprus is witnessing an unprecedented transformation in renewable energy infrastructure as BESS and large-scale solar parks combine to create the most ambitious energy independence program in the Mediterranean. With substantial EU subsidy backing and national commitment reaching €35 million in.

TotalEnergies is betting big on the solar power market in Cyprus. It won the environmental approval for a photovoltaic park of 100 MW in peak capacity, with energy storage. It intends to build it in an area previously designated for a golf course. France-based TotalEnergies is an oil supermajor.

We are pioneers in the Study, Design, Planning, Management and Maintenance of the largest photovoltaic parks in Cyprus, with a clientele of over 40MW. We manage and operate, simultaneously, privately owned PV parks, with a total capacity of 20.62MW. We undertake the entire project licensing.
