

## Kongres Container

# Czech Republic has 60V site energy battery cabinet

## Overview

---

Will a house-sized battery help stabilize the Czech energy grid?

The House-sized Battery Will Help Stabilise the Czech Energy Grid \*The battery storage capacity is 10 MW and it exceeds the current largest battery in the Czech Republic by more than 40%. \*The system can hold 9.45 MWh of energy, three times the size of the ČEZ battery in Tušimice.

What is the largest battery in the Czech Republic?

The latest contribution is the largest battery in the Czech Republic with an output of 10 MW, which is being built under the supervision of ČEZ ESCO on the premises of Energocentrum Vítkovice and will be fully operational in the second half of this year.

How will a storage system help the Czech energy sector?

The storage system will support the transformation of the Czech power sector and contribute to the stabilisation of the power grid by providing power balance services. “Europe's energy sector is changing dynamically, but a secure energy supply and network stability remain the cornerstones.
