# Double-layer solar curtain wall

## Overview

---

What is solar photovoltaic curtain wall?

Solar photovoltaic curtain wall integrates photovoltaic power generation technology and curtain wall technology. It is a high-tech product. It is a new type of building material that integrates power generation, sound insulation, heat insulation, safety and decoration functions.

How does a double-glazing PV curtain wall work?

In the hybrid system, the ventilated double-glazing PV curtain wall provided reheat energy for the subcooled supply air while effectively cooling the PV façade. It efficiently facilitated solar-electric conversion and excess heat recovery (HR), thereby enhancing the electrical and thermal performance of the building.

How does a photovoltaic curtain wall work?

A photovoltaic curtain wall coupled with an air-conditioning system is designed. Curtain wall cooling and supply air reheating are achieved using heat recovery. System performance is evaluated, taking an office in hot-humid summer as a case. The system increases power output by 1.07% and achieves 27.51% energy savings.

Which solar cells are used in photovoltaic curtain wall?

At present, crystalline silicon solar cells and amorphous silicon solar cells are mainly used in photovoltaic curtain wall (roofing) systems. Photovoltaic glass modules have different color effects depending on the type of product used.

How does a curtain wall increase the temperature of a solar system?

Due to the expansion of PV coverage ratio, more solar energy is captured and converted into electrical energy, while more thermal energy is generated from the curtain wall and therefore increases the system component temperature. Fig. 21.

Are photovoltaic curtain walls a good choice?

Gas with harmful effect and no noise is a kind of net energy and has good compatibility with the environment. However, due to the high price, photovoltaic curtain walls are now mostly used for the roofs and exterior walls of landmark buildings, which fully reflects the architectural features.
