# Equatorial Guinea communications project to build base stations

## Overview

---

Why did GETESA become a national mobile network of Equatorial Guinea?

AB - This paper focuses on the modernization of the first national Mobile Network of Equatorial Guinea, called GETESA. The government's decision to invest and take full control of the network was motivated by the lack of network quality, which had poor capacity, with 69% of the network coverage Received-Signal-Code-Power (RSCP) below 95dBm.

Is ubiquitous global communication possible in Equatorial Guinea?

Enabling Ubiquitous Global Communications in Equatorial Guinea Via the Transformation of Getesa. Am. J. Eng. Technol.

What was the first national mobile network of Equatorial Guinea?

This paper focuses on the modernization of the first national Mobile Network of Equatorial Guinea, called GETESA. Equatorial Guinea has three telecommunication companies: GETESA, Muni and Gecomsa. Getesa is the largest and the historical Equatorial Guinea telecommunication company established in 1987.

Is there a GSM network in Equatorial Guinea?

It is a different country to Guinea (aka Guinea-Conakry) or Guinea-Bissau. Two GSM-based networks are operating in Equatorial Guinea :Getesa (formerly: Orange, Getesa-Orange) and Muni. There is also a CDMA-based provider that is not compatible with usual GSM-devices called Gecomsa.

How many telecommunication companies are in Equatorial Guinea?

Equatorial Guinea has three telecommunication companies: GETESA, Muni and Gecomsa. Getesa is the largest and the historical Equatorial Guinea telecommunication company established in 1987. The Government of Equatorial Guinea holds 60% of the company whereas France Cable held 40% until it transferred its shares to Orange in 2010.

When did gecomsa start introducing LTE in Equatorial Guinea?

It started in 2012 as joint venture between the Guinea government and the state-owned ZTE manufacturer from China. Gecomsa also introduced LTE technology in December 2020 but strictly for fixed residential/office broadband services (initially covering Equatorial Guinea's capital Malabo and adjacent districts).
