Fully protected pulse inverter 12v

Overview

What protections does a 1200W pure sine wave inverter offer?

Protections: Battery low voltage alarm / Battery high voltage alarm / Over temperature protection / Over load protection / Short Circuit protection. 110%-120% of the output was maintained for 30s, then the output turned to bypass, more than 160% maintained the 300ms. Ampinvt 1200W Pure Sine Wave Inverter.

Can the inverter work with a 12V battery system?

This inverter can ONLY work with 12V battery system. The inverter CAN NOT can in parallel Battery MUST BE connected first 1200 watt is continuous output power, peak power is 3600W Package included: Note: Different types of loads have different starting impulse currents.

How to choose a rated power inverter?

Pls know that load is divided into resistive load and inductive load .If you need the inverter to run the resistive load (like laptop, TV, electric cooker), please choose the inverter with continuous power higher than the appliance's rated power. And it is best to use 80% of the rated power.

What is a pure sine wave inverter?

This “pure” power is ideal for all kinds of electrical equipment but is especially important for delicate or sensitive electronics and electrical appliances, tools and medical devices. If you’re looking for 12-volt inverters, AIMS Power offers a big selection of 12-volt pure sine wave inverters and accessories.

Does a pure sine inverter have a spark-free protection circuit?

This is a significant increase from the 4-5 protections found in most other power inverters on the market. This Pure sine inverter is equipped with a professional spark-free protection circuit: that automatically stops output when power is not properly connected or when a circuit is shorted.

Can a power inverter charge a battery bank?

This Power inverter is able to charge the battery bank when AC power is connected to the inverter. This inverter can ONLY work with 12V battery system. The inverter CAN NOT can in parallel Battery MUST BE connected first 1200 watt is continuous output power, peak power is 3600W Package included:

Fully protected pulse inverter 12v
