# Gambia Solar Energy Storage Project

## Overview

---

Gambian utility Nawec is seeking proposals for a 50 MW PV facility planned to be deployed in Soma, south of the River Gambia. The project is part of a broader solar project eventually including unspecified battery storage capacity.

Gambian utility Nawec is seeking proposals for a 50 MW PV facility planned to be deployed in Soma, south of the River Gambia. The project is part of a broader solar project eventually including unspecified battery storage capacity. Gambia's Ministry of Petroleum and Energy (MoPE) and state-owned.

Gambiaj.com - (BANJUL, The Gambia) - The Gambia's National Water and Electricity Company (NAWEC), in collaboration with the World Bank, has officially launched the bidding process for a landmark 50-megawatt solar power and energy storage project aimed at transforming the country's electricity.

Gambia's National Water and Electricity Company (NAWEC) is making significant strides in its ambitious solar expansion project. Central to this initiative is the installation of a large-scale photovoltaic plant in Jambur village, complemented by a state-of-the-art battery energy storage system.

Gambian utility Nawec and the country's Ministry of Petroleum and Energy is seeking proposals for a first phase 50 MW solar project with energy storage located in Soma. The preliminary design and planning model concluded that the capacity of the solar power park could be up to 150 MW with storage at.

Gambia's Ministry of Petroleum and Energy (MoPE) and state-owned utility Nawec have jointly launched a tender for the construction of a 50MW Solar Storage System in Soma, south of the River Gambia. The PV facility is part of a

150 MW solar project under development since 2019 which is planned to be.

Gambia's Ministry of Petroleum and Energy and utility National Water and Electricity Company (Nawec) have invited independent power producer (IPP) developers to submit a request for qualification (RFQ) for the first stage of the Soma solar-storage project. On completion, the plant would not only be.
