# Georgia Charging Station Energy Storage Equipment Manufacturer

## Overview

---

Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

What does Georgia Power do?

“At Georgia Power, we work with the Georgia PSC and many other stakeholders to make the investments required for a reliable and resilient power grid, integrating new technologies to better serve our customers today and as Georgia grows,” said Rick Anderson, senior vice president and senior production officer for Georgia Power.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.

What is gravity's fastest charging network?

We are the only automaker-independent hardware and software developer and site operator of America's fastest charging technology network. Gravity's Fastest Charging Network Lays the Foundation for Tomorrow's Abundant, Resilient Grid. Much smaller, much faster and bi-directional ready.

How far away can a car charging station be installed?

Modular and scalable to over 20MW with 30kW power modules. Can be installed up to 500 feet away from dispensers. Our stations just work – you will never drive away unable to charge. Just tap to charge with your credit card or mobile device or register your car for an even faster experience.
