German intelligent energy storage cabinet integrated system

Overview

We deliver a complete, intelligently networked system – featuring power electronics manufactured in-house in Bocholt (Germany), high-performance batteries selected to match your project, integrated energy management, and all the components needed to bring it all together. What is Intelligent Energy Systems?

The department “Intelligent Energy Systems” develops the technologies for the digitalization of the power electronic and energy conversion in the transportation and energy domains.

What is smart energy storage?

Standardized Smart Energy Storage with Zero Capacity Loss All-In-One integrated design, 1.76m footprint, saving more than 30% of floor space compared to split type Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss Four-in-one Safety Design: "Predict, Prevent, Resist and Improve".

What are the benefits of a low-voltage AC-side cabinet integration?

Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss Four-in-one Safety Design: "Predict, Prevent, Resist and Improve" Predict: AI-powered big data analytics for 8-hour advance fault prediction Prevent: High-precision detection provides 30-minute early warnings
