Gravity Energy Storage Cost

Overview

How much does gravity storage cost?

For Gravity Storage systems, the levelized cost of storage decreases as the system size increases. Based on the system cost, GES with an energy storage capacity of 1 GWh, 5 GWh, and 10 GWh has an LCOS of 202 US\$/MWh, 111 US\$/MWh, 92 US\$/MWh, respectively. This can be explained by the fact that the system CAPEX decreases with an increased capacity.

How much does gravity based energy storage cost?

Looking at 100 MW systems, at a 2-hour duration, gravity-based energy storage is estimated to be over \$1,100/kWh but drops to approximately \$200/kWh at 100 hours. Li-ion LFP offers the lowest installed cost (\$/kWh) for battery systems across many of the power capacity and energy duration combinations.

What is gravity energy storage?

Gravity energy storage (GES) technology relies on the vertical movement of heavy objects in the gravity field to store or release potential energy which can be easily coupled to electricity conversion. GES can be matched with renewable energy such as photovoltaic and wind power.

Is gravity energy storage a good investment?

The results reveal that GES has resulted in good performance metrics including IRR and NPV of project and Equity, as well as ADSCR, and LLCR. In addition, for a 1 GW power capacity and 125 MWh energy capacity system, gravity energy storage has an attractive LCOS of 202 \$/MWh.

How is cost information obtained for gravity-based storage systems?

Cost information for various gravity-based storage systems was obtained directly from developers. For brick-based storage systems, cost and performance information was obtained for a single power output (10 MW) with

two different energy outputs (40 and 2,40 MWh) (Terruzzin, 2021).

What is gravity energy storage system (GESS)?

The 25 MW/100 MWh EVx™ Gravity Energy Storage System (GESS) is a 4-hour duration project being built outside of Shanghai in Rudong, Jiangsu Province, China. The EVx™ is under construction directly adjacent to a wind farm and national grid.
