

## Kongres Container

# Grenada solar inverter distribution box

Application scenarios of energy storage battery products

## Overview

---

What is a PV distribution box?

PV Distribution Box: Specifically designed for the distribution of power generated from PV systems. PVB series PV combiner box is designed for solar off-grid system available with series of max VOC 150Vdc and 250Vdc. Wall-mounted, IP20, Suitable for systems with 6 units TBB inverters (5KW/6KW/8KW each) in parallel.

What is the difference between DC distribution box and PV combiner box?

DC Distribution Box: Handles the distribution of DC power. - PV Distribution Box: Specifically designed for the distribution of power generated from PV systems. PVB series PV combiner box is designed for solar off-grid system available with series of max VOC 150Vdc and 250Vdc.

What is a PV combiner box?

Wall-mounted, IP20, Suitable for 3-phase and parallel systems composed of 6 units TBB inverters (5KW-8KW each) and 3 units PV inverters (15KW each) PVB series PV combiner box is designed for solar off-grid system available with series of max VOC 150Vdc and 250Vdc. Visit [Download Page](#) for More Information.

What type of inverter is suitable for a 3 phase system?

Wall-mounted, IP20, Suitable for 3-phase and parallel systems composed of 3 units TBB inverters (5KW-8KW each) and 2 units PV inverters (15KW each)

Wall-mounted, IP20, Suitable for 3-phase and parallel systems composed of 6 units TBB inverters (5KW-8KW each) and 3 units PV inverters (15KW each)
