Honduras Nickel-Cadmium Battery Energy Storage Container

Overview

In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender – the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1]. Fast forward to March 2025, and China's Windey (赢德) teamed up with Spain's Equinsa to clinch the \$50.2.

In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender – the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1]. Fast forward to March 2025, and China's Windey (赢德) teamed up with Spain's Equinsa to clinch the \$50.2.

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the 'Supply, installation, testing and commissioning.

The National Electric Power Company (ENEE) announced a bid for installing a Battery Energy Storage System (BESS) to enhance energy supply stability, particularly for challenges anticipated in summer 2024 and the projected demand increase for 2025. This 75 MW/300 MWh system will be installed at the.

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy storage system (BESS) at the Amaratoca substation in the department of Francisco Morazán. Honduran state-owned utility ENEE has.

Recently, Windey, in collaboration with EQUINSA, a local Honduran power company, successfully won the EPC turnkey contract for Honduras' first energy storage project—the Honduras Energy Storage Project—marking a critical breakthrough of "first bid, first win" in its international energy storage.
