# How long is the warranty period for solar energy storage batteries

## Overview

---

Nowadays, most manufacturers offer at least 10 years of coverage under a product warranty, while some premium options have up to 20 years of protection against product defects. What is a solar battery warranty?

Solar battery warranties vary by manufacturer and product. A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery.

When do solar battery warranties expire?

Solar battery warranties typically expire when the first of three conditions are met: A solar battery's warranted life is the number of years the manufacturer guarantees the performance of the battery, typically it is set at 10 years from the date of installation.

How long do solar batteries last?

\*Unlimited cycles warranty may not apply if the battery is charged using grid electricity. A few things that stand out: To recap, based on the manufacturer's warranties (which tend to be conservative) you can count on today's lithium-ion solar batteries to last at least 10 years - and perhaps up to 15.

How long does a battery warranty last?

However, should the counter reach zero in year seven, the warranty ends then, even if the calendar says ten years. Throughput measures the total energy that flows through the battery over its warranted life, expressed in kilowatt-hours. A 10 kWh battery rated for 30 MWh can reach that limit in about eight years if you fully cycle it daily.

What is a home battery warranty?

The home battery product warranty provides coverage if the device shows real defects: in other words, if the battery simply stops working. Most batteries have a product warranty period of 10 years. This means that if anything

breaks in the battery in the 10 years from the time of installation, you can seek redress from the manufacturer.

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.
