In 2025, solar energy in Ukraine is no longer a novelty, but a profitable and proven solution for those who want to save money, be independent of the grid, and have control over their energy consumption.

What are the prices for the equipment?

The cost of a small solar power plant depends on its capacity. For example, equipment with a capacity of 100 W costs 10-15 thousand UAH. A 10 kW station, including materials and installation, costs about 250 thousand UAH.
