Is there any communication with 5G base stations in Saudi Arabia

Overview

Does Saudi Arabia have 5G?

The kingdom is an established 5G pioneer not only in the Gulf region, where it ranks closely to the UAE and Qatar, but globally, where it consistently ranks among the highest available speeds worldwide. Average download speeds in Saudi Arabia have reached more than twice the global average at 322 Mbps, according to network-testing company Ookla.

Who is the largest 5G provider in Saudi Arabia?

The largest 5G provider in Saudi Arabia—and the MEA region—is Saudi Telecom Company (stc), which claimed 5.6 million 5G subscriptions by December 2022. Having inked network rollout agreements with equipment suppliers like Huawei, Nokia, and Ericsson, stc has more than 75 cities and towns in its 5G footprint.

Which countries have 5G in the Middle East?

After the UAE, the next four MEA countries to get 5G were all in the Middle East, with launches in Bahrain, Kuwait, and Qatar in July 2019, followed by Saudi Arabia in the fourth quarter of that year. Africa's first 5G network was launched by wholesale operator Liquid Telecom South Africa in March 2020, using its 3.5GHz spectrum holdings.

What is 5G & how does it affect gaming in Saudi Arabia?

For consumers, 5G means faster connectivity, better mobile video and voice experiences, and more immersive entertainment including high-quality live streaming for gaming, virtual reality, and e-sports — a major added value considering that almost half of Saudi Arabia's population enjoys gaming regularly.

Is 5G a catalyst for Saudi Arabia's smart city initiatives?

Undoubtedly, 5G technology is an important catalyst in Saudi Arabia's smart

city initiatives, providing cutting-edge connectivity for new cities like NEOM and Qiddiya and existing conurbations such as Riyadh and Makkah.

Will 5G drive innovation in Saudi Arabia?

5G not only offers important breakthroughs for Saudi Arabia's most profitable industries, including gas and oil, logistics, and services, but has the potential to drive innovation through IoT-powered smart cities.
