Israel Home Solar System Application

Overview

Jerusalem, 26 August, 2025 (TPS-IL) — In continuation of the Ministry of Energy and Infrastructure's policy to promote 100,000 home solar energy systems in Israel by 2030, the Ministry published for the first time recommended specifications for installing solar systems on residential roofs for public use. How much solar energy does Israel need?

The 100,000 target, equivalent to 15% of Israel's residential rooftops, is expected to add 1.6 GW to the country's solar energy supply.

How to set up solar panels in Israel?

When setting up solar panels, the first step is contacting a company that installs solar systems. Today in Israel, there are many companies of this type in the growing market, and it is worthwhile to conduct thorough market research and get recommendations from others who have already been through the process.

How many solar roofs will Israel have by 2030?

Israel's Ministry of Energy and Infrastructure says its 100,000 Solar Roofs Program aims to add 1.6 GW of new solar capacity by 2030. Israel's Ministry of Energy and Infrastructure is targeting the addition of 100,000 solar rooftop arrays in the country by the end of this decade.

What is Israel's Investment model for solar energy?

The investment model for solar energy has evolved over the last decade, as Israel has put more of a focus on increasing the rate of green electricity generated from renewable energy sources, most notably - sunlight.

Can a solar power plant be installed on a roof in Israel?

In order to meet Israel's goal of increasing the production rate of green energy to 30% within a decade, the State is promoting legislation that allows owners of private homes and commercial buildings to set up a solar power plant on

the roof.

Should Israel use solar panels?

Another advantage to expanding the use of solar panels is that it reduces Israel's dependence on oil-produced energy, which in today's world affords great power to a fairly small number of countries, most of which are characterized by problematic regimes, to say the least.
