East African country, Kenya, has launched its very first Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center in the nation's capital, Nairobi. In a press statement on Tuesday, the state-owned Kenya Electricity Generating Company (KenGen) said the.

The Kenya Electricity Generating Company PLC (KenGen), has been designated to be the Implementing Agency for the Kenyan Battery Energy Storage System (BESS), which is part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank. KenGen is the leading electric.

Current statistics show that renewable energy contributes to over 80% of the power injected into the Kenyan grid, a significant rise from the less than 60% reported ten years ago. This achievement is a testament to Kenya's commitment to positioning itself as a pioneer in the transition to.
