The Government of Barbados has officially launched a major procurement process for the country's first large-scale Battery Energy Storage Systems (BESS), aimed at transforming the national electricity grid and unlocking delayed renewable energy investments. The launch event, hosted by the Ministry.

Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the renewable energy sector. The tender process will open the door for developers to bid for up to 60 megawatts.

Cat® Microgrids provide cost effective power for on- and off-grid communities and commercial or industrial installations. By combining renewable energy, from our photovoltaic modules and advanced energy storage solutions, with traditional generation, from utilities or generator sets, we can develop.
