Latvia Energy Storage solar Box Substation

Overview

The project, expected to be fully operational and grid-connected by March 2027, will feature a new Padure 330kV substation linking to Latvia's national grid via high-voltage lines. Danish Sun Energy will provide expertise in permits, licenses, and comprehensive design and engineering.

The project, expected to be fully operational and grid-connected by March 2027, will feature a new Padure 330kV substation linking to Latvia's national grid via high-voltage lines. Danish Sun Energy will provide expertise in permits, licenses, and comprehensive design and engineering.

European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This acquisition will pave the way for the construction of a new photovoltaic (PV) solar power plant with a capacity of 400 megawatts.

SUNOTEC, one of Europe's leading renewable energy development and construction companies, has acquired 100% of the share capital in SIA DSE Lazas Solar from Danish greenfield developer Danish Sun Energy ApS to build a new PV solar power plant with a total capacity of 400 MWp (megawatts DC) with a.

Bulgarian-German renewable energy development and construction company SUNOTEC has acquired a project in Latvia that combines 400 MWp of solar capacity with 600 MWh battery storage from Danish greenfield developer Danish Sun Energy ApS. The Lazas solar park project, located in Cirava Rural.

On July 13th, SUNOTEC, a well-known European renewable energy service provider, officially completed the acquisition of SIA DSE Lazas Solar's solar and energy storage project in Latvia. The project is located in the C ģ rava area of Dienvidkurzeme, Latvia, and plans to construct a 400 megawatt peak.

Hydroelectric power is the main source of renewable electricity in Latvia, followed by solar, wind and biomass cogeneration plants. In 2024, solar power in Latvia grew over 3.1 times to 6.7% of total electricity, becoming the third-largest source, while wind reached a record 38 GWh and hydropower.

European renewable energy provider SUNOTEC has finalized the acquisition of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This transaction enables the development of a 400-megawatt peak (MWp) photovoltaic solar power plant and a 600-megawatt-hour (MWh).
