

Kongres Container

Lead-acid battery sign container base station

Overview

Are used lead acid batteries a hazardous waste?

Used Lead acid batteries or Car Batteries are classified as a hazardous waste. As a result their storage, handling and transportation is controlled by several Federal and State regulations. This fact sheet includes used lead acid battery / car battery storage requirements as well as US lead acid battery shipping / transport requirements.

What is the best way to transport used lead acid batteries?

The default device for transporting used lead acid batteries (ULAB) in most countries throughout the world, is the wood pallet. It is popular due to its low cost, widespread availability and the convenience of being able to transport one way. The wood pallet however has a number of significant drawbacks for transporting ULABs, including;

Are lead acid batteries safe?

Batteries containing corrosive fluids, such as Lead-Acid battery systems, must be treated with the utmost care to ensure safe operation. There are various PPE requirements and situational health risks, including a possibility of combustion in the presence of an open flame.

Why should you choose a BTS container for used car batteries?

The 6.5 Gal bunded base captures and prevents acid leaks into the environment and the weather resistant design enables batteries to be stored outdoor. The BTS Container also provides a convenient & clearly identified location for used lead acid battery storage. 2. Safe & Convenient Used Car Battery Transportation.

What is a battery container?

The Battery Container's front load configuration enables the ergonomic loading of heavy car batteries into the Battery Container. The 6.5 Gal bunded

base captures and prevents acid leaks into the environment and the weather resistant design enables batteries to be stored outdoor.

How do battery containers work?

The Battery Containers are initially deployed at customer sites (used battery generators), by the Battery Collector / SMD. When full the Battery Collector will deliver an empty exchange BTS Container simultaneously picking up the full Container.
