Lebanon outdoor power supply 2 degrees of electricity Huijue mobile power supply

Overview

What type of plugs does Lebanon use?

Lebanon uses power outlets and plugs of types C, D & G. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Be careful!.

What is the standard voltage for a power socket in Lebanon?

All power sockets in Lebanon provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Lebanon if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a power plug adapter when travelling to Lebanon?

Select the country you are from to see if you need a power plug adapter when travelling to Lebanon. Lebanon uses power outlets and plugs of types C, D & G. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter.

Do I need a voltage converter in Lebanon?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Lebanon. The standard frequency in Lebanon is 50Hz.

What is the standard frequency in Lebanon?

The standard frequency in Lebanon is 50Hz. If this frequency differs from the frequency used in your home country, please use caution when plugging in your devices. Check the small print on the device to see if the device can handle the frequency.
