Lesotho solar Energy Storage Power Generation Project

Overview

Lesotho is taking a groundbreaking step toward energy independence with the construction of the Letsatsi Solar Power Station, a 70-megawatt (MW) photovoltaic facility near Likhakeng in the Butha-Buthe District. What is the energy sector like in Lesotho?

The energy sector in Lesotho is characterised by an enormous potential of renewable energy resources. Lesotho has the potential to produce up to 6,000 MW from wind and solar, 4,000 MW from pump storage, 400 MW from conventional hydropower, and more than 1,000 MW from

Can Lesotho produce electricity?

Renewable energy resources. Lesotho has the potential to produce up to 6,000 MW from wind and solar, 4,000 MW from pump storage, 400 MW from conventional hydropower, and more than 1,000 MW from hydropower. However, the current demand for electricity continues to exceed

Does Power Africa support the development of electricity generation projects in Lesotho?

Power Africa supports the development of electricity generation projects in Lesotho. Various firms have received U.S. Embassy support to move transactions forward. Power Africa's involvement in the country includes a containerized solar solution. Read more about the project below.

Who owns Lesotho electricity generation company (LegCo)?

Electricity generated to LEC. The Lesotho Electricity Generation Company (LEGCO) is a company wholly owned by the Government of Lesotho. LEGCO was incorporated on the 29th January 2020 as a public company under the Companies Act of 2011. It commenced its full operations on

Will Lesotho be able to produce electricity by 2030?

Universal Access by 2030. Lesotho has the potential to produce up to 6,000 MW

from wind and solar, 4.000MW from pump storage, 400MW from conventional hydropower, and more than 1 00MW from hydropower. Lesotho submitted their first NDC in January 2017 which make them recognis.

What is Lesotho solar energy society?

Lesotho Solar Energy Society (LeSES) acts as a platform for the industry and clean energy expert groups to exchange information and implementation of an industry code of practice. Hlotse, Leribe, Lesotho. Decentralized renewable energy production (biogas and solar) and energy saving technologies (stoves), technical training.
