Liechtenstein imported solar panel prices

Overview

For a solar module manufacturer, this means products made in Liechtenstein can be exported to any country in the European Union without tariffs or quantitative restrictions, just as if they were produced in Germany or France.

For a solar module manufacturer, this means products made in Liechtenstein can be exported to any country in the European Union without tariffs or quantitative restrictions, just as if they were produced in Germany or France.

This small nation offers a rare opportunity for a solar module manufacturer to gain tariff-free access to two of the world's most stable and lucrative markets—the European Union and Switzerland—from a single production base. Here, we outline the mechanics of this dual-access model and what it means.
