Malaysia single glass solar curtain wall customization

Overview

What is curtain wall glazing?

The curtain wall method of glazing allows glass to be used in large uninterrupted areas creating consistent attractive facades. The flexibility in choice of NSG Group products allows the designer to control every aspect of the performance from thermal to solar considerations and ultimately the design statement for the building.

What is a curtain wall system?

Its specialty encompasses state of the art façade system such as unitized curtain wall which has much better performance in term of structural, air and water defense as well as ease and safe site installation methodology.

What are the prestigious projects in Bukit Bintang?

Some of our latest prestigious projects include the Pavilion Damansara Heights, Setia Sky Seputih, MRT 2, Bukit Bintang City Centre Office Tower & Hotel and the Merdeka Mall.

What is a glass curtain wall?

The external side of glass curtain wall is coated with colored metal coating. Observing from the outside, the whole piece of the external wall is like a giant mirror, the sky, the surrounding environment and scenery are filled into the building, enriching the facade appearance.

What is a frameless glass curtain wall?

Fully spider fitting frameless glass curtain walls, connect glass together in an open space using various types of light or heavy steel structures via various types of spider fitting members to form flexible and unobstructed glass facade.

Are glass curtain walls a good choice?

Glass curtain walls are lightweight, easy to install and quick-to-assemble aluminium frames. You'll be amazed at how these can sufficiently support your roof or floor. You may not think they will hold much, but one would be surprised how well such light material handles strong winds without cracking under pressure while keeping its shape intact.
