# Mauritius Vanadium Battery Energy Storage Project

## Overview

---

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

**BATTERY ENERGY STORAGE SYSTEM (BESS): SUPPORTING A LOW-CARBON FUTURE** As Mauritius transitions to a low-carbon economy, the CEB is actively integrating Battery Energy Storage Systems (BESS) to manage fluctuations in renewable energy sources like solar and wind. BESS plays a critical role in.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius. This initiative is poised to play a crucial.

Inauguration of the 20MW project on 28 May 2024. Image: Government of Mauritius The government of Mauritius has welcomed the commissioning of a 20MW battery storage project which will provide frequency regulation to the East African island nation's grid. The large-scale battery energy storage.

Paris, August 7, 2025 - Independent renewable energy company Qair announces the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius. This project builds upon Qair's long-standing presence in the Indian.

The CEB owns and operate some 480MW of fuel oil thermal and 60MW of hydro power capacity. It also has IPP contracts for about 200MW coal/bagasse for base load generation. There are also some 107 MW Solar PV, 3.3MW Of Landfill Gas and 9.35 MW of Wind. The transmission network, operates at 66

kV.

GIS- 28 May 2024: In line with Government's vision to promote Renewable Energy in the electricity mix to 60% by 2030, a 20 Megawatt (MW) Grid-Scale Battery Energy Storage System (BESS), was inaugurated, in presence of the Minister of Energy and Public Utilities, Mr Georges Pierre Lesjongard, this.
