

Kongres Container

Mauritius container power generation manufacturer

Overview

Will Mauritius start a floating power plant?

Mauritius is inviting international investors to establish and operate a floating power plant as the Indian Ocean island nation seeks to address its growing energy needs, according to a tender issued by the state-owned Central Electricity Board.

How much energy does Mauritius generate?

Mauritius has a nominal installed capacity of 876.76 MW, out of which 498.47 MW are from CEB generating units and the remaining 378.29 MW are from Independent Power Producers, Medium Scale Distributed Generators and Small Scale Distributed Generators. In 2018, the total energy generated amounted to 2,827.6 GWh.

How many MWM containers have been installed worldwide?

270 containers with 245 MW el have already been installed worldwide. Complete MWM Container solutions: read about intelligent and complete turnkey systems for decentralized energy generation (combined heat and power plants - CHP). The components are configured to your individual needs.

Who owns the Central Electricity Board in Mauritius?

The Central Electricity Board (CEB) is a parastatal body wholly owned by the Government of Mauritius and operating under the aegis of the Ministry of Energy and Public Utilities.

Where are the thermal power stations located in Mauritius?

Most of CEB's thermal power stations are located in the vicinity of the Port Area in Port Louis on account of on-shore fuel handling facilities which are readily available for unloading of fuel. Mauritius has a good solar regime, with a potential average annual solar radiation value of some 6 kWh/m²/day.

Does Mauritius have solar and wind energy?

However, at present, the exploitation of solar and wind energy is still at the inception stage in Mauritius. Hydropower plants, with a combined installed capacity of 60 MW, contribute to some 4% of the total energy production. The share of bagasse in the energy mix accounts for around 11%.
