# Mongolia Energy Storage BESS solar Project

## Overview

---

In a statement, the ADB said it aims to develop about 115 megawatts of solar photovoltaic capacity and 65 megawatts/237 megawatt-hours of battery energy storage systems (BESS) across the country's Western and Eastern Energy Systems.

In a statement, the ADB said it aims to develop about 115 megawatts of solar photovoltaic capacity and 65 megawatts/237 megawatt-hours of battery energy storage systems (BESS) across the country's Western and Eastern Energy Systems.

ULAN BATOR, Oct. 31 (Xinhua) -- The Asian Development Bank (ADB) said Friday that it has been engaged by the Mongolian government to provide transaction advisory services for the Stable Solar Energy in Mongolia Project. In a statement, the ADB said it aims to develop about 115 megawatts of solar.

The new project aims to change that by delivering reliable, affordable, and low-carbon power to some of the nation's most remote areas. "ADB is proud to support Mongolia in advancing its clean energy transition through innovative renewable energy and storage solutions," said Shannon Cowlin, ADB.

The Asian Development Bank (ADB) has been engaged by the Government of Mongolia to provide transaction advisory services for the Stable Solar Energy in Mongolia Project, which aims to develop approximately 115 megawatts (MW) of solar photovoltaic capacity and 65 MW / 237 megawatt-hours (MWh) of.
