

Kongres Container

Mongolia container power generation manufacturer

Overview

Why is Inner Mongolia constructing a new energy storage power station?

[Photo/Xinhua] HOHHOT -- Inner Mongolia Energy Group has started constructing a large-scale new energy storage power station in the Ulan Buh Desert, the eighth-largest in China, to better harness new energy power for grid connection.

How many MWM containers have been installed worldwide?

270 containers with 245 MW el have already been installed worldwide. Complete MWM Container solutions: read about intelligent and complete turnkey systems for decentralized energy generation (combined heat and power plants – CHP). The components are configured to your individual needs.

What is the largest energy storage power station under construction?

Designed with a capacity of 605,000 kilowatts, the project is the largest single energy storage power station under construction in the country. The energy storage station can help send a stable supply of electricity from photovoltaic power facilities to the grid.

Does Dengkou have a photovoltaic power station?

The energy storage power station built in Dengkou boasts photovoltaic power generating facilities with an annual capacity of generating 3.16 billion kWh of electricity, contributing to carbon dioxide emission reduction by 2.75 million tonnes annually while making ecological treatment of about 44,600 mu sand area.
