Morocco Energy Storage Project Planning

Overview

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW. Furthermore, the action is in line.

Morocco is planning to invite bids for a giant power storage facility with a capacity of nearly 1,600 megawatts (MW) within a long-term programme to expand renewable energy sources in its national power network, a newspaper said on Tuesday. The facility, which uses large batteries for storage, will.

Morocco is accelerating its energy transition by issuing a global call for expressions of interest to build two large-scale battery storage facilities. The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco's national electricity company ONEE. On May 20.

Morocco's 2026 draft finance bill reinforces the country's long-term plan to expand renewable energy, launch major gas and hydrogen projects. Mohammedia - Since launching its National Energy Strategy in 2009, Morocco has been working to raise the share of renewable energy to 52% of the installed.

To address this, Morocco is resolutely focusing on lithium iron phosphate (LFP) batteries, a reliable, durable technology suited to local constraints. This choice is part of a national strategy for equipping, testing, and industrializing energy

storage. Globally, the battery market is experiencing.

Morocco recorded a surge of energy agreements in 2025 across renewable power, gas infrastructure, and battery storage, marking one of the country's most active years in the sector, according to a new report by the Attaqa energy platform. The report described 2025 as a "landmark year" for Morocco's.
