Morocco s new communication base station wind and solar complementarity

Overview

As of 2019, renewable energy in Morocco covered 35% of the country's electricity needs. Morocco has a target of sourcing more than half of its electrical energy from renewable sources by 2030 and a plan to have 2,000 MW of wind and 2,000 MW of solar power plants by 2020, looking to add 1.5 GW renewable capacity.
