# Myanmar Communication Wind Power Base Station Price Inquiry

## Overview

---

What is Myanmar's first wind power project?

A deal for Myanmar's first wind power project with the participation of a Chinese energy infrastructure company was signed on Wednesday, a major step in bilateral new-energy cooperation, the Chinese Embassy in Myanmar said in a statement released on Thursday.

What is Myanmar power generation EPC market?

The Myanmar power generation EPC market refers to the sector involved in Engineering, Procurement, and Construction (EPC) activities related to power generation projects in Myanmar. This market plays a crucial role in meeting the country's growing demand for electricity, which is driven by economic development, population growth, and urbanization.

How Chinese companies are supporting Myanmar's energy supply?

Active role by Chinese companies has already taken place in supporting the country with the much-needed energy supply. Myanmar's first 100-megabyte photovoltaic power generation project, the Jingda Sub-project, funded and developed by Power Construction Corp of China, was connected to the grid on January 18.

Who manages Myanmar's energy sector?

Myanmar's energy sector is managed by the Ministry of Electric Power (MOEP) and the Ministry of Energy (MOE), which together account for over one-third of public sector revenue. Before May 2022, the two ministries operated under one single Ministry of Electricity and Energy (MOEE).

Can solar power improve Myanmar's development?

Myanmar is moving to exploit solar and wind energy, but experts said such attempts must be stepped up to smoothen the country's development. Soe Ohn, director of the national electrification project at the Rural

Development Department, said solar energy offered high potential particularly in rural electrification.

Why does Myanmar need more electricity?

**Economic Growth:** Myanmar's rapid economic growth is driving the demand for electricity, particularly in industries such as manufacturing, construction, and services. The need for additional power generation capacity is pushing the market forward.
