Netherlands standards for outdoor power supplies

Overview

What are standards in the Netherlands?

There are norms for, for example, toys, electric devices, or medical instruments. The Netherlands Standardisation Institute (NEN) develops and manages these standards. What are standards?

Governments, manufacturers, traders, and consumer organisations can agree to set standards for products, services, and production processes.

How is electricity regulated in the Netherlands?

The Electricity Act regulates the production, transportation and supply of electricity. The Dutch electricity grid is divided in the high-voltage grid, which is regulated by the transmission . Regulation in the energy sector is an important instrument for governments and regulators to promote the transition to a sustainable energy system.

Who manages European standards in the Netherlands?

The institute manages the national standards, European standards (EN), and international standards (ISO, IEC) that are accepted in the Netherlands. There are 3 recognised European standardisation organisations: CEN and CENELEC, and ETSI. They are responsible for the European standards. You have to pay in order to use standards.

Where can I buy European standards?

There are 3 recognised European standardisation organisations: CEN and CENELEC, and ETSI. They are responsible for the European standards. You have to pay in order to use standards. You can buy standards for your trade from NEN (in Dutch).

Do you need standards for your products or services?

Your products or services may need to meet certain standards. There are

norms for, for example, toys, electric devices, or medical instruments. The Netherlands Standardisation Institute (NEN) develops and manages these standards. What are standards?

.

What products & services are available in Dutch?

Furthermore instruction manuals, online subscription databases (NEN Connect, NEN 1010plus, NEN 3140plus) and consultancy services are also available. These products and services are for the most part only available in Dutch. Products are available as PDF (directly downloadable) and/or as hard copy.
