New Zealand Power Storage Vehicle Manufacturing Price

Overview

Can I buy a hydrogen refuelling station in New Zealand?

There are now multiple hydrogen-powered vehicle options available for purchase or lease in New Zealand. Hiringa works closely with all OEMs and integrators to ensure hydrogen refuelling stations are compatible with all vehicles and the latest products coming to market.

Why is fuel storage important in New Zealand?

The choice of fuel used for storage is critical for security, price stability and environmental impact. There is value in New Zealand having diversity for its storage solutions, as seen by the impact of the lack of gas in Winter 2024. Working with every facet of the energy industry, to help clients respond to business issues and trends.

Can New Zealand import new EVs?

New vehicles: There will be limits to what can be imported to New Zealand because of limited production capacity, focussed on supplies to more stringent policy-led markets. New vehicles: There are unlikely to be supply constraints for imports of new EVs.

What are the implications for New Zealand's EV supply?

The implications for New Zealand are that there is significant expected investment in EV production capacity and significant increases in sales. New Zealand would expect to increase imports in-line with these global trends. This means that, in the longer run, eg by 2030, there are expected to be no significant limits to EV supply.

Why are EV depreciation rates so high in New Zealand?

Depreciation rates are estimated to be high in New Zealand because of the higher levels of competition in supplies of used vehicles, which include both New Zealand new and imported used vehicles. This is true for EVs as well as

other vehicle types.

How much do EVs cost in New Zealand?

The profile in New Zealand is different, with 62% of EV registrations to January 2021 being used imports, of which 78% (or 48% of total registrations) have been used Nissan Leafs. These can be purchased for less than NZ\$15,000. Teslas make up 8% of the total imports of EVs to date in New Zealand.
