# New energy mobile power three-level battery box

## Overview

---

When will the BYD battery-box HVE energy storage system & power-box inverters be available?

The BYD Battery-Box HVE energy storage system and Power-Box inverters will be available across the European market starting June 2025. Additionally, another new product for the European market will be introduced in Q2 2025.

How many MWh can a mobile battery trailer store?

Each mobile battery trailer can store up to 2 MWh or more of energy, with liquid cooling offered as an option to reach higher energy densities. The mobile battery unit currently relies on the latest lithium-ion battery technology, but it is designed to accommodate any battery type.

What is a battery-box HVE?

This advanced product joins the popular, award-winning Battery-Box family. The Battery-Box HVE is paired with either the single-phase hybrid inverter Power-Box SH3/3.7/4.6/5/6K or the three-phase hybrid inverter Power-Box TH5/6/8/10/12/15K by BYD, marking the company's first integrated residential energy storage system.

How does a battery energy storage system work?

By separating the battery energy storage module from the power conversion unit, the energy storage system provides customers with a modular solution, along with the flexibility to scale to the specific energy storage capacity requirements of their application.

What is mobile energy storage?

For example, mobile storage is often the preferred solution for utility operators to meet rising power demands. Battery energy storage is also used by operators to supplement grid power for up to three years before committing to fixed infrastructure investments. Mobile energy storage for land and sea.
