

Kongres Container

Nigeria high-quality energy storage project

easy to install and use

World wide Products

faster charging and discharging

Multiple protection with alarm systems

Can save energy

the battery capacity can be increased freely and flexibly according to the situation of home use.

Rechargeable lithium batteries use safe LiFePO₄

Overview

The African Development Bank (AfDB) has approved a \$1.2 million grant to support the development of a battery energy storage system (BESS) in Nigeria, a move seen as critical to stabilising the nation's power grid and accelerating renewable energy integration.
