Niue Energy Storage Power Supply

Overview

The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp photovoltaic solar array, 8.19MWh Battery Energy Storage System and significant upgrades to the Niue electricity network to increase safety and resilience. How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

What is Niu energy?

NIU's developed a 4th generation NIU Energy™ lithium battery technology that has a longer lasting battery life, longer range, and more lightweight that is safer and more powerful. NIU has maintained a fast pace of growth and has sold an accumulation of over 1 million smart electric two wheeler vehicles worldwide.

When is Niue's New Power Station launching?

The Ministry of Infrastructure celebrated the so5 launch of Niue's New Power Station on the 7th November 2024. The launch marks a critical milestone in Niue's journey to strengthen and modernize its energy infrastructure.

What does the Minister of infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon. Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being. This achievement would not have been possible without the support of our regional partners."
