Nordic 48v industrial frequency inverter

Overview

With its high IP 54 class of protection, the SK 750E is optimally equipped to meet the requirements of distributed drive control. Allowing for alternative mounting options (wall or motor as appropriate) the device can smoothly be integrated into the existing machine and system architecture. The SK 750E is a robust drive control package available with outputs between 5.5 and 22 kW, for connection to supply voltages between 200 and 480 VAC. What is a Nord frequency inverter & motor starter?

NORD Frequency Inverters and Motor Starters are ideal both for centralised operation in a control cabinet as well as for decentralized, fully integrated use directly on the motor. The inverters are Industry 4.0 ready, can be networked and with the internal PLC enable pre-processing of internal status data or data from externally connected sensors.

Are Nord frequency inverters energy efficient?

NORD Frequency Inverters already meet the requirements of energy efficiency classification IE2 of the new Ecodesign directive (EU) 2019/1781 (valid from 1st of July 2021). NORD's innovative distributed control AC vector drives and motor controllers operate near or directly mounted on the motor and reduce load on the higher level control system.

Do you need a 48 volt pure sine power inverter?

When you're in need of consistent power output that boasts efficiency at higher loads, you need an AIMS Power 48-volt pure sine power inverter. [Show More >](#) Create a backup power system with 48-volt pure sine power inverters that are ideal for reliably powering a large range of electronics, tools and appliances.

Does nordac Link offer a frequency inverter?

Within the NORDAC LINK family we also offer a corresponding Frequency Inverter with integrated PLC, which optimally provides functions close to the drive. Find out more about NORDAC *LINK* Motor Starters. Frequency

inverters and motor starters from NORD DRIVESYSTEMS operate quickly, reliably and safely.

Are Nord frequency inverters Industry 4.0 ready?

The inverters are Industry 4.0 ready, can be networked and with the internal PLC enable pre-processing of internal status data or data from externally connected sensors. This enables remote status monitoring. <h2>Reasons for buying NORD Frequency Inverters</h2>.

Who sells 48 volt pure sine wave power inverters?

Inverters R Us carries 48 volt pure sine wave power inverters by Aims, COTEK, Magnum Energy and Outback. If you can't find the 48 volt inverter you are looking for, please let us know as we can source it for you. These 48 volt power inverters are listed numerically from smallest to largest. Can't find what you need?
