North Macedonia has outdoor communication power supply **BESS**

Overview

The battery energy storage system (BESS) is set to become operational in the second half of this year. It will help enhance the reliability and stability of the power grid by storing excess power from the Oslomej solar park and releasing it during periods of peak demand.

The battery energy storage system (BESS) is set to become operational in the second half of this year. It will help enhance the reliability and stability of the power grid by storing excess power from the Oslomej solar park and releasing it during periods of peak demand.

October 13 (SeeNews) - North Macedonia's Energy and Water Services Regulatory Commission (ERC) said it has issued the country's first licences for battery energy storage systems (BESS) powered by renewable sources to local company Energo Solar Systems. ERC granted licences for two battery systems.

Oslomej Solar Power Plant in North Macedonia has added a 62 MW / 104 MWh BESS, marking Fortis Energy's move toward grid-firm hybrid solar operations by 2026. [Link copied!Copy failed!](#) The 62 MW BESS has enabled Oslomej Solar Plant to deliver on-demand power through advanced energy time-shifting.

Luxembourg-based Zen Energy Group has started the installation of a hybrid energy project in North Macedonia, combining a solar power plant and a battery energy storage system. A solar power plant with a battery energy storage system (BESS) could become the country's second hybrid power plant, with.

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park it operates in North Macedonia. Energy storage battery. Photo by Anna Vasileva The deal awarded to the subsidiary of Kontrolmatik.

With Macedonia's renewable energy capacity growing by 18% annually (National Energy Agency, 2023), Bitola stands at the crossroads of energy modernization. The outdoor power supply BESS price has become a hot topic

for municipalities and industrial operators seeking reliable peak shaving solutions.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski. In addition, Hydrogen Utopia intends to build a plant for the production of hydrogen from waste plastics. Minister of.
