# Order flat-plate solar panels for self-built houses in Belize

## Overview

---

Are small house solar kits affordable?

Our small house solar kits are affordable and assembled as per your needs. Remember to shop The Inverter Store for the rest of your solar product needs, as we offer additional accessories such as mounting brackets, solar panel cables and connectors, and many more accessories to complete your off-grid home solar system today.

What is included in a solar kit for home?

Our complete solar kits for home already come with just about everything you need to begin harnessing power from the sun, including solar panels, inverters, batteries, cables and solar charge controllers. Typically, we recommend kits ranging from 60 to 720 watts for smaller homes, depending on how many devices and appliances need power.

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Does your new home need a rooftop solar system?

Once you are setup, SunPower will take it from there. In 2020, California became the first state to require net zero energy construction on all new homes, including a mandate that all new homes include a rooftop solar component. The SunPower New Homes Department is here to help you understand how this mandate affects new home buyers like you.

Can small home solar panels power a small home?

As you can tell, our small home solar panel kits vary widely in terms of what they can power. From small, portable solar panels to six-panel bundles that

are capable of providing power to medium-sized homes, there's something in your selection that's perfect for your individual needs.

Does SunPower have a new home?

SunPower's latest achievement revolves around new home construction, recently topping our 100,000th home with a fresh set of solar panels. What happens once you sign the dotted line?
