Peru installation of a solar panel

Overview

Can solar energy be used in Peru?

Potentialities and Limitations of Solar Photovoltaic (PV) Energy in Peru Solar PV energy advances on a large scale have already been carried out in Peru, as they are environmentally friendly and an attractive option to apply in different geographical locations with solar resource potentialities.

Where is solar PV potential found in Peru?

Explore the solar photovoltaic (PV) potential across 19 locations in Peru, from Tumbes to Arequipa. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to determine solar PV potential and identify the optimal panel tilt angles for these locations.

What is the development of solar PV energy in Peru?

Finally, Figure 21 shows the development over time of the installed capacity in MW of solar PV energy in Peru. Figure 21. Evolution (years) of the solar photovoltaic installed capacity (MW) in Peru. Figure 21 shows that the first stage of solar PV energy in the country began in 2012, with strong growth from 2012 to 2023.

Is solar energy progressing in Peru?

The current progress of solar energy in Peru is incipient, so analysis of the solar photovoltaic (PV) facilities that are in operation and improvements and increases in the number of photovoltaic modules and total installed capacity is in progress (Figure 28).

Where are solar energy plants located in Peru?

These regions are part of the Coast Desert of Peru, in which nine photovoltaic solar energy plants are in operation in 2024. Also noteworthy are the northern regions of the country (i.e., Tumbes and Piura and part of the Sechura desert), which, despite their attractive solar resources, have not been used to date.

How many solar photovoltaic projects are planned in Peru?

Table 17 shows that there is a total of 33 solar photovoltaic facility projects planned to be executed in Peru between 2024 and 2028. Furthermore, it is possible to see that the projects are in the northern zone (Piura) and southern zone (Ica, Tacna, Moquegua, Puno and Arequipa) of Peru.
